NISSAN INTELLIGENT MOBILITY

# A BOLDER RIDE THROUGH LIFE

Nissan Intelligent Mobility empowers you with tomorrow's technology for a more confident, exciting drive. You'll see more and sense more around you. So even when you can't see that car sneaking up on you, or you're straying from your lane, you can count on your Terra to take notice, and give you a heads-up. All of this gives you more confidence and, ultimately, the freedom to embrace the joy of being behind the wheel – the way driving was always meant to be.

**HILL START ASSIST**

Helps stop you from rolling backwards. It holds brake pressure for a few seconds, giving you enough time to switch from the brake pedal to the accelerator.

**LANE DEPARTURE WARNING**

Helps make sure you change lanes only when you mean to. If it detects that you're drifting over, it'll give you a heads-up.

**INTELLIGENT AROUND VIEW MONITOR**

**PARKING** - Using four cameras, Intelligent Around View Monitor gives you a virtual composite 360° bird's-eye view of kerbside views. It also gives you an on-screen heads-up when it detects moving objects near your vehicle.

**OFF ROAD** - The Intelligent Around View Monitor becomes your personal spotter. At low speed, it gives you a clear view of the surrounding terrain, so you can avoid things and see exactly where to place your front wheels for a clear path ahead.

**FULLY BOXED LADDER FRAME**

# BUILT ON A HERITAGE OF STRENGTH

We have a history of building vehicles that can go just about anywhere. A full-length, fully boxed ladder frame. With it, the Terra becomes one of the toughest SUVs on the road. Exceptional angles of approach and departure, plus impressive ground clearance, allow it to handle some seriously tough terrain. And on- or off-road, you'll experience a smooth and comfortable ride, thanks to the steel double-wishbone front suspension and the multi-link rear suspension.

Unlike some three-sided frames, a fully boxed ladder frame won't twist over uneven terrain. This means more strength, and ultimately, more capability.

**TURBOCHARGE EVERY PART OF THE DAY**

**2.5-L** COMMON RAIL TURBO DIESEL ENGINE

POWER

**190 HP**

@ 3,600 RPM

TORQUE

**450 NM**

@ 2000 RPM

Impressive horsepower and torque, with fuel efficiency to match. A common rail turbo engine and 7-speed automatic or available 6-speed manual transmission ensure acceleration is there when you need it.

## OFF-ROAD TECHNOLOGY

# FIND A NEW ROUTE TO A WEEKEND ESCAPE

All roads aren't created equal. That's why Terra's available 4x4 system is designed to handle nearly any kind. Add in 4-Wheel Active Brake Limited Slip (ABLS) – which senses wheel spin and automatically redirects power to the wheels with grip – and hill descent control, and you'll have plenty of help in conquering the roughest terrain.

# A WORLD OF TECHNOLOGY THAT REVOLVES AROUND YOU

In the Terra, you are the centre of the technology universe. From steering wheel controls that let you adjust the cruise control and audio system to Bluetooth hands-free calling to a USB and auxiliary input, it's about making every journey more enjoyable. Throw in smartphone integration, and it all adds up to a more connected drive for you and your passengers.

**ADVANCED DRIVE-ASSIST DISPLAY**

**ACCESSORY SOCKET**

**INFOTAINMENT SYSTEM**

**TWIST AND TACKLE**

Choose between 2WD and 4H to go from maximum fuel efficiency on the highway to serious adverse weather capability on command

**ACCESSORY SOCKET**

**USB SOCKET  
HDMI INPUT**

**REAR SEAT TUMBLER**

Easy access to the third row is always assured. Driver can just flip the switch from the front

## PREMIUM IS IN THE DETAILS

No matter what seat you take, it's clear Terra is all about the finer things. From an exceptional view provided by the elevated second and third rows to special sound-dampening materials to Zero Gravity front seats. Add in all the roominess with the sliding 2nd-row seats, luxurious leather appointments, and unique ambient lighting, and you'll want to spend a lot of time here.

## DESIGNED TO KEEP EVERYONE HAPPY ALL THE WAY THERE

It's hard to please everyone, but with Terra's smartly designed interior, you actually can. Dual Zone Automatic Temperature Control keeps those up front happy, while the rear-seat air conditioning with personal vents provide comfort for the rest of the crew. There's even an available 11-inch flip-down rear monitor that's perfect for extra-long road trips. And with plenty of convenience features that make the journey easy from start to finish, you might even wish the trip took a little longer.

### Second-row Seats with Tip-up Easy Entry

Easy access to the third row is always assured. Just flip and roll the second-row seat in one motion, and your passengers will have plenty of room to climb in. You can even do it from the driver's seat with the simple press of a button.
